Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 10 November 2006.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

Claim Objections

1. Claims 12 and 13 are objected to because of the following informalities: claim 12 depends from canceled claim 10. Appropriate correction is required.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-6 and 11- 22 are rejected under 35 U.S.C. 103(a) as being unpatentable over Abe et al. (4,907,709) in view of Davis (Des. 312,044).

In regard to claims 1-6, 11-17 and 22, Abe et al. disclose, in figs. 1 and 2, a plastic cap comprising a shell 2 having a skirt terminating in a continuous terminal end, a tamper evident band 15, a plurality of frangible connectors 16, a top surface of the band is downwardly tapered in the direction of the band outer surface, an inwardly continuous bead on the band inner surface, and a continuous notch on the outer surface of the band relative to the bead.

Davis teaches, in fig.5, a continuous notch on an outer surface a tamper evident band being a smooth, concave grooved notch, and a continuous bead being rounded.

Therefore, it would have been obvious to one having ordinary skill in the art at the time the invention was made to modify the tamper evident band of Abe et al. with a

smooth, concave grooved notch, and a continuous rounded bead, as taught by Davis, in order to enhance the flexibility of the band.

In regard to claim 18-21, Abe et al. do not disclose the closure comprising copolymer material as claimed. It would have been obvious to one having ordinary skill in the art at the time the invention was made to make the Abe et al. closure with copolymer material as claimed, since it has been held to be within the general skill of a worker in the art to select a known material on the basis of its suitability for the intended use as a matter of obvious design choice. In re Leshin, 125 USPQ 416.

4. Claims 7-9 are rejected under 35 U.S.C. 103(a) as being unpatentable over Abe et al. in view of Davis and further in view of Csaszar (4,669,623).

Csaszar teaches, in fig. 7, a gap between a cap skirt and a tamper evident band being non-uniform height.

It would have been obvious to one having ordinary skill in the art at the time the invention was made to modify the closure cap of Abe et al. with the gap between a cap skirt and a tamper evident band being non-uniform height, as taught by Csaszar, in order to enhance of reducing the pressure applied to the frangible connectors and preventing any premature fracture thereof.

Response to Arguments

5. Applicant's arguments with respect to claims 1-9 and 11-21 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
